

MANAGEMENT INFORMATION SYSTEMS KNOWLEDGE EXCHANGE

Friday 13th and Saturday 14th October 2017

This JAWS is a workshop led sharing of best practice in the use of Management Information Systems in FOBISIA schools. The MIS you use in school is not important, this is simply a platform for looking at ways in which MIS can be used creatively to help a school achieve its objectives.

NLCS Jeju welcomes submissions from interested delegates to lead a workshop on any of the following topics:

- Integrating and Developing an MIS into schools
- Performance Tracking and Assessment
- Admissions Processes
- Data Reporting and Data Handling
- The use of an MIS with Parents
- The use of an MIS with students to enhance learning
- Behavior and Pastoral Management with an MIS.
- Timetabling
- Finance and Billing

Cost:

60,000 Korean won per person

Further Information:

Graeme Stevens gstevens@nlcsjeju.kr

Register:

Eva Gulian egulian@nlcsjeju.kr

Optional outing to explore the charms of Jeju will be available.

It is anticipated that delegates will be able to choose from a variety of workshops in each session.

As well as delegates being able to run their own workshops if desired, NLCS Jeju will present on the following topics:

“Reinventing and reimagining the use of an MIS system. A journey of discovery”

“Creating a parent hub and the involvement of the school community in the design process”

On the second day we will have time for Job alike sessions both by role and also additionally by system, to give as much opportunity to share ideas as possible.

It is also hoped that an MIS Network will develop from this to share ideas and collaborate in the future.

Local Hotels and Transfer: We recommend the Jeju Aerospace Hotel and will run free shuttles between the school and the hotel on both days.
