

Science JAWs

Job Alike Workshop: Friday 17th November – Saturday 18th November 2017

During the Job Alike Workshop (JAWs) there will be an opportunity to network with teachers from other FOBISIA schools to share effective practice.

This JAWs is for teachers of all age groups. We will spend some time looking at whole school approaches to the teaching of Science as well as splitting into smaller groups in order to focus on specific age groups.

There is an expectation that all attendees actively participate throughout the two days and so the full agenda will be completed once all of the participants are registered. Possible themes include:

- Sharing good working practices
- How to incorporate STEM challenges in lessons?
- Which apps are successful in your science lessons?
- Top tips on how to assess learning in science
- Using Higher Order Thinking skills in science.

Other suggestions are welcomed!
