## The Race

The Foundation Race4Good mobilises students aged 10 - 13 to engage in real-life content and high-impact learning as they take part in a series of online races. Student teams compete against other schools for the chance to leave an incredible legacy while uplifting vulnerable families and communities. Winning business plans are implemented immediately. The content and pace of the signature Race4Good programme have been adjusted to introduce sustainable and meaningful service to a younger age group.
